ANNUAL REPORT
OF THE
POLICE DEPARTMENT
CITY OF LOS ANGELES
CALIFORNIA

**FOR THE FISCAL YEAR
1928 - - - 1929**

HON. GEO. E. CRYER - - - - - MAYOR

BOARD OF POLICE COMMISSIONERS

Dell A. Schweitzer, President

F. W. Gollum, Vice-President

JAMES E. DAVIS - - - CHIEF OF POLICE

In Line of Duty

John M. Brinnegar

Policeman

Appointed October 1, 1924

Died September 29, 1928

Attacked on stakeout in the house of an illicit distiller while his partner went for help to dismantle the still found there. He fought with gun and fists until both he and his adversary were unconscious. Policeman Brinnegar was found dead and the distiller died within a few minutes after discovery. Police Commission Medal.

John M. Schomaker

Policeman

Appointed December 31, 1926

Died February 27, 1929

William H. Marple

Policeman

Appointed September 2, 1927

Died February 27, 1929

Killed by the overturning of their car in an attempt to avoid traffic accident while on a non-emergency call.

POLICE COMMISSION AWARD FOR VALOR

Awarded only for utter disregard of personal safety
under highly dangerous conditions
in line of duty

W. F. RASMUSSEN

Policeman

CLAUDE A. WHISMAN

Policeman

For valor displayed in a gun battle with a bandit whom they surprised while robbing a gasoline station. The bandit was killed. Policeman Whisman was retired for disability received in the battle.

ROBERT L. PRUETT

Emergency Sergeant of Police

For valor displayed in gun fight with surrounded bank bandit who was concealed in shrubbery. The bandit was killed. Notice was also taken of Sergeant Pruett's previously demonstrated disregard of personal hazard.

B. W. THOMASON

Detective Lieutenant

HARRY N. WILDE

Policeman

For valor displayed in a gun battle with two jewelry bandits whose raid had been foretold in a tip to Detective Division. Only extreme coolness under fire and marksmanship of a high order prevented injury or death to passersby on the crowded sidewalk. Both bandits were killed.

JOHN M. BRINNEGAR (Deceased)

Medal presented to the widow of Policeman Brinnegar.

DEPARTMENT OF POLICE
CITY OF LOS ANGELES CALIFORNIA
JAMES E DAVIS CHIEF

July 1, 1929.

Honorable Board of Police Commissioners,
City of Los Angeles,
Los Angeles, California.

Sirs:

I respectfully submit herewith the annual report of the Police Department for the fiscal year ending June 30, 1929.

The facts as set forth in the statistical sections reveal increasing effectiveness in the protection of life and property in the City of Los Angeles during 1928-'29. This was accomplished without any increase in the number of sworn police. It is incontrovertible evidence of the energetic performance of the loyal men and women in the Department, and the practical character of the direction and leadership under which they have functioned.

Since repeated attempts were made during the year to discredit in the public mind the statistics presented by the police, we take pleasure in quoting, for the benefit of the readers of this report, from certain eminent authorities on crime statistics:

"Any person who makes any pretense of having knowledge concerning police organization and administration cannot help but admit that the very best statistical and complaint bureau in existence in the United States is located in the Los Angeles Police Department. There is nothing comparable to it anywhere in this country. I can speak with authority on this subject for the reason that I have visited most of the large police departments and know considerable about the record systems that have been installed in these places."

AUGUST VOLLMER,

Chief of Police, Berkeley, California, recipient of the Harmon Medal for his contributions to the study of practical police work.

"I have had occasion to examine the Los Angeles Police Department system of keeping crime complaints with some care. I do not hesitate to say that I think the accuracy and completeness of the statistical analyses made from your department's crime records are not surpassed in any city of the United States."

LEONARD V. HARRISON

Bureau of Social Hygiene, New York City, and staff member, President Hoover's Law Enforcement Commission.

MAJOR CRIME DECREASE

Last year we reported a decrease, from the preceding year, of 6 per cent in major crime. This year it gives us pleasure to report that we have greatly improved upon that record by showing a decrease over last year of 13 per cent in the principal types of major crime. The decreases are distributed as follows:

Crime	1927-28	1928-29	Increase(+) Decrease(-)
			%
Burglary	7,182	5,571	- 22
Robbery	1,564	1,237	- 21
Grand Theft	558	694	+ 24
Auto Theft	10,813	9,872	- 9
Theft from the Person	593	372	- 37
False Pretense	117	116	- 1
Worthless Checks	1,109	1,110	+ 0.
Assault, Deadly Weapon	405	342	- 16
Murder	57	55	- 4
	22,398	19,369	- 13

Readers will note that in crimes involving the use, or threat, of violence, (murder, assault with a deadly weapon, robbery and burglary), the decrease will total 21.7%. This means that the methods used to make Los Angeles unsafe for dangerous criminals and unprofitable for their allies are bearing fruit.

LIQUOR LAW ENFORCEMENT

Throughout the year the Department has been very active in the enforcement of the state liquor law. The records show 9,737 bookings for liquor law violations. Disposition reports indicate that 5,694 persons plead, or were found, guilty, many of them on two or more counts. The conviction rate, on the basis of counts sustained, is 84.5%.

Of those convicted only 11% received straight jail sentences. Seventy-eight per cent received an alternate, (jail or fine), sentence, paid the fine and returned to do business until caught again. It is obvious that the limited number of officers that can be detailed to the work of securing the conclusive evidence required to convict a bootlegger can not hope to do more than curtail the business so long as the fine-license system is in vogue. This year shows a decided increase in jail sentences, due to the co-operative effort of a group of splendid Municipal Court Judges. Heavier fines and more jail sentences will materially aid in cutting down the traffic in liquor.

Taking the profit out of the liquor industry will not only eliminate liquor law violations. It will definitely and directly affect the crime rate, particularly in the realm of crimes of violence. Criminals of the more dangerous types thrive as retainers of the liquor industry, whose enormous funds provide them with the best to be had in deadly weapons, bail them out readily when caught, and employ the ablest counsel to get them off lightly when forced to trial.

URGENT NEEDS

The continued growth and increasing prosperity of the city makes the problem of affording satisfactory police protection with the limited manpower and equipment at our disposal a grave one.

The need of additional men is acute. Anything approaching adequate patrol of our 446 square miles is impossible. The reduction in crime has been brought about by special police methods in spite of deficient patrol service. These special methods cannot be effective beyond a certain point. More men must be provided at the earliest possible time.

The same holds true of equipment. The more inadequate the manpower the more imperative is the need of high-grade motor equipment so that the ground may be covered.

The failure of the bond issue for the construction of a new Police Headquarters and Central Jail leaves the city in a serious situation. Inadequate and improper facilities for the detention of prisoners is a grave handicap in the carrying out of any law enforcement program.

I therefore respectfully direct your attention again to these urgent requirements. On behalf of all members of the Department, I beg to assure you that every effort will be made to further reduce crime occurrences in this city despite the burden of handicaps suffered.

Respectfully yours,

A cursive signature in black ink that reads "James E. Davis".

Chief of Police.

Executive Office

Los Angeles Police Department
Board of Police Commissioners

July 1, 1929.

Honorable John C. Porter, Mayor,
City of Los Angeles.

Sir:

The Board of Police Commissioners desires to submit the following report covering the fiscal year 1928-1929.

Your Honor's attention is called to the fact that within the last few years there has been considerable territorial addition to the City of Los Angeles, which has made it the largest city in the United States, insofar as square mileage is concerned. However, during that time there has been no increase in personnel or equipment to the Police Department to adequately patrol this vast territory.

As you are aware, at the last general election a bond issue was submitted to the people, for the purpose of building a new city jail and administration building, which was defeated. This action on the part of the citizens has, to a great extent, seriously handicapped the Police Department in its efficient functioning.

Recently the Board of Police Commissioners petitioned the City Council for an appropriation of \$19,374.60, outside of the 1929-1930 budget for necessary improvements in the Lincoln Heights Jail, otherwise known as the Stockade. Up to date the Commission has had no word as to the outcome of this request.

At the time the Budget was in preparation, the Chief of Police requested the purchase of a Police Boat to patrol the harbor district. Inasmuch as a high powered sea-going boat is required in the apprehension of rum runners and narcotic smugglers in the harbor district, only a high grade boat should be used. This item was not allowed, but the need for one has not diminished.

The Board of Police Commissioners is fully aware of the desirability of keeping departmental expenditures within the budget appropriation. However, under the circumstances which exist, the Police Department has been compelled to ask for several appropriations outside of the budget appropriations, in order to meet these necessary requirements.

The Board of Police Commissioners wishes to assure your Honor that it is a pleasure to be of service to you in any way possible to make your administration a success, and would appreciate your cooperation with the Board so as to render the maximum of service to the citizens of this city.

Respectfully,

DELL A. SCHWEITZER,
President.

GEO. T. JEFFERS,
Secretary.

MODUS OPERANDI

In connection with the statistical consideration of crime, the Statistician's Office has for some years operated a very successful Modus Operandi (Method of Operation) system, using the card labelled **Complaint** on page 26 in the 1927-28 report. Until recently the use of this system was confined to locating the probable offenses committed by a person actually in custody, for fingerprint check, or in tracing the course of a criminal using a peculiar Modus Operandi with a view to anticipating his next move and arresting him.

During the year this system has been extended by the addition of a duplicate card on all cases closed by arrest. This card, in addition to bearing the punched modus operandi outline, carries the name and identification number of the person whose arrest closed the case.

Now we are not only able to trace the probable cases on a person arrested but also to present a selected suspect list immediately upon the realization that a number of current offenses show characteristics indicating them to be the work of one person.

SUMMARY OF MAJOR CRIMES

This tabulation represents the nearest approach to "Return B" of the Uniform Crime Reporting system tentatively proposed by the committee on Uniform Crime Records of the International Association of Chiefs of Police in their June 1929 release. The figures in bold type are those indicated in "Return B," while those in light face type are those of our own classification.

In view of the fact that this outline was not received until practically the close of the fiscal period, Column 3 shows only those reports which were determined to be unfounded too late for omission from the monthly figures of "Offenses Known or Reported to Police" which are added together to produce our annual total. Those on which follow-up reports were received before the 15th of the following month indicating that they were unfounded, were deducted at that time from the number reported.

While not so indicated by the Committee's report, those cases in which successful action has been prevented by unwillingness or refusal of the victim to cooperate have been included in *unsuccessful* cases.

While the recovery of property without arrest is shown in this tabulation, those cases have been included in the column "Not Cleared by Arrest."

The line of demarcation between Petty Theft and Grand Theft being \$200 in California, that is the division used this year. Future reports will in all probability show Petty Theft divided into over \$50 in value and \$50 or less.

Inasmuch as the present report is an attempt to reconcile the system developed in this department, and that sponsored by the Committee, it seems advisable to again present the definitions used in the Statistician's office of the Los Angeles Police Department.

BURGLARY—Burglary is charged whenever victims report that some one has entered a building, railway car, etc. (except where the suspected person has a right to enter), and has taken something of value.

Attempt Burglary is charged where entry was unsuccessful or where nothing of value was taken.

ROBBERY—Robbery is charged whenever any article has been taken from the person or from the presence of the person by fear or violence, except where the violence was to the article and not to the person. (Purse snatching)

GRAND THEFT (Larceny prior to July 29, 1927)—Grand Theft is charged on the taking of any article value at \$200 or over, without the knowledge of the owner, but without burglarious entry. Certain livestock, without regard to value, is also included in the requirements for Grand

PETTY THEFT (Larceny prior to July 29, 1927)—Petty Theft includes the taking of articles (except specified livestock) having a value of less than \$200.

*(See also **Theft**, **False Pretense**, **Misrepresentation**, **Fraud**, **Con**, **Swindling**, **Chicanery** prior to July 23, 1921.)—*

Theft from the Person is charged when any article is taken from the clothing or person, without the knowledge of the person; or with his knowledge if taken by surprise and not by violence to the person (Purse-snatching).

FALSE PRETENSE—**False Pretense** is an arbitrary classification including those cases in which articles (money or property) are obtained from the owner by trick or device or wilful misrepresentation.

AUTO THEFT—Auto Theft is charged when any motor vehicle is taken unlawfully except in a Burglary or Robbery. In those cases the value of the car is considered in the value of property taken. No time lapse is considered.

AUTO RECOVERY—Auto Recovery is credited whenever the identifiable portions of the car (or the car intact) have been returned to the owner or his agent, regardless of the agency through which recovery has been made.

TRAFFIC

This year saw the installation of the four hundred ninety-first set of traffic signals, thus completing an expansion program which was expected to take care of future requirements. However, growth of the problem has been so great as to require a new installation program to be laid out to take care not only of streets made major traffic arteries by widening, but also of streets made into traffic arteries by the efforts of the rapidly increasing number of motorists to dodge the crowded regular routes.

With this increase in streets used and cars to use them, has come no corresponding increase in personnel with which to patrol them and enforce careful driving. The unfortunate result has been a 13.5% increase in accidents involving personal injury, a 16% increase in persons injured, and a 10% increase in traffic deaths. This situation has led to plans for a Traffic Accident Bureau comparable in its specialized field to the Detective Division. The duty of this Bureau will be to investigate every accident involving personal injury with a view to criminal action upon any traffic violation that may be proven against either or both parties to the accident.

It is felt that such action will place a premium upon safe driving while at the same time not cutting down the volume of traffic handled by focussing attention upon one type of violation.

While traffic citations fell off 16% from the records of last year they maintained a sufficient lead over the highest previous year to lead us to feel that the lessons of the Traffic Course had not been forgotten. The increase in citations after the course was not the result of a "skyrocket" drive, but came as the natural consequence of proper education, creating a level of enforcement that could be kept fairly constant by a little administrative attention whenever slight laxity appeared.

For the convenience of the motorist who desires merely to let off or take on passengers, sixty-three Passenger Loading Zones were marked on curbs. In these zones, only passenger cars may stop at all, then for not to exceed three minutes while actually taking on or discharging passengers. In addition to these, 379 new Freight Loading Zones were established and 120 old ones cancelled.

Safety on major highways and at signalled intersections has been promoted by the marking of center and lane lines.

The necessity for keeping curb and street markings clear required the painting of over 154 miles of red curb, and 19,500 loading zones, or approximately 145 miles of yellow curb.

While painted street markings are being replaced by metal plates as fast as our budget permits, it is deemed impracticable to use other means for curb markings. Consequently even though the work of the sixteen painters has been reduced to the minimum compatible with safety and the legally required legibility of markings, it has required additional appropriations of funds to supply needed materials.

In view of the insufficiency of the efforts the Department could put forth without seriously impairing its service in other fields, the Department withdrew from the Safety education field. Cooperation is extended to the Board of Education and to unofficial public spirited organizations in such measure as it is requested.

ORGANIZATION

It is natural that in an organization which has grown with the speed of the Los Angeles Police Department, from a membership of 732 in 1921 to its present membership of 2,604 that there should be a certain amount of shifting of organization in the endeavor to find the arrangement which will lead to the greatest results.

The Inspector of Detectives, who formerly acted as Field Inspector of the Department, having been promoted to Assistant Chief, was not replaced. However, a group of six divisions was formed into a District under the command of a Deputy Chief of Police, whose responsibility and authority in the District over all its members is subject only to the general policy and instruction of the administrative officers.

It appearing after a thorough trial of a decentralized vice system that the vice situation may be more effectively controlled by a centralized group, the Vice Division was again organized to perform its function throughout the entire city. Members of that Division are assigned to the respective police stations for convenience, but the Division commanders are expected only to cooperate with these men and to take action in the event that a vice condition is not immediately acted upon by the Vice Division.

Supervision of the Motorcycle Traffic Patrol force has again been centered in the Traffic Division. While the primary purpose of the group is the enforcement of motor vehicle laws, it has been found very useful in the enforcement of prohibition laws through the patrol of arterial highways in the suburban sections of the city.

In the belief that those groups which perform a centralized function without direct authority in other divisions should be a part of the headquarters organization, the Statistician's office was transferred from the Division of Records to the Administrative Offices.

In general, the authority of functional divisions to supervise the performance of their respective functions in Patrol Divisions has been amplified and extended.

MONEY AND PROPERTY HANDLED BY PROPERTY DIVISION

MARKSMANSHIP

As was anticipated in our report last year, funds were provided for the renewal of the marksman ship bonuses on the following basis:

Marksman	280-319 points	\$ 5.00 per month
Sharpshooter	320-359 points	10.00 per month
Expert	360-400 points	20.00 per month

There are now 16 experts, 130 sharpshooters and 238 marksmen of 2,358 eligible to qualify.

The course is that recommended by the National Revolver Association, consisting of ten shots slow fire, ten shots time fire, ten shots rapid fire and ten shots at a silhouette target, allowing 12 seconds from "Draw" for each string of five shots.

Competition at Camp Perry, in the National matches resulted very satisfactorily. The Los Angeles Police Pistol Team won first place in the National Police Pistol Match, carrying with it the Colt's Trophy and recognition as the Champion Police Pistol Team of the United States. In the National Pistol Team Match our team was surpassed only by a team from the United States Marines and Army, to whom the automatics used in this match are a much more familiar arm.

In the National Rifle Association Pistol Team Match, third place, the highest taken by a police team was won by the Los Angeles Police.

Later in the season, the telegraphic match for the Winan's Trophy was won by a fair margin.

Profiting by our experience at Camp Perry, we have made several quite valuable changes in our range. Among these were the installation of "Surprise" and "Running Men" targets.

The Surprise targets, six in number, are scattered from 20 to 50 yards from the firing point and include about 90° of arc. Each consists of a standard silhouette target on a frame which may be pulled into view by levers worked from a pit behind the marksman. The marksman, who is walking

IMPROVED POLICE RANGE, ELYSIAN PARK

Showing four of the six surprise targets and the running man target

along with drawn revolver, is given three seconds in which to locate which target is in view and fire one shot into it. He is allowed to take about three steps when the same target or another target in another part of the range is flashed for instantaneous action. The Surprise targets are operated from the firing point without particular regard to their order of appearance.

The Running Men target consists likewise of a standard silhouette target, but it is mounted on a track about 25 yards from the firing point. It appears without warning from behind the obstruction and travels about 75 feet in view of the marksman at approximately the speed of a running man. A few seconds later it returns to its original position. The marksman must fire three shots into the target on its first trip and two shots on its return.

The surprise targets are operated from a firing point without particular regard to their order of appearance.

For the present only those officers entering into competition for places on the Pistol Team will use the new targets. However, at a later date it is hoped that the rest of the members will have an opportunity to use these targets which simulate natural conditions under which a policeman operates more than the regulation 25-yard targets.

The result of the training for competition and for bonus is apparent in the fact that only one policeman was killed and one permanently disabled by the gunfire of criminals, while eight law violators were killed by the bullets of policemen without injury to any citizen.

EMERGENCY DIVISION

Los Angeles, being a city in which the normal traffic flow is only slightly diminished with the coming of night, presents unusual opportunities to those who would commit crime in one section of the city and immediately jump to a distant neighborhood by automobile.

To combat this type of criminal, the Emergency Division was formed. For a time it was composed of men loaned to the Central Detective Division, but was created a Division in March, 1929.

It operates by checking every car past a series of intersections, searching very carefully any that appear suspicious. The checking points are changed nightly or even several times in a night, so that great uncertainty is instilled into the minds of car thieves and robbers as to where they may encounter officers. Added to this uncertainty is another, that all members of the Division may not be on the street, but may be "staked" in the type of establishment that has received the greatest recent criminal attention.

Although thousands of cars, 28,800 in one month, have been inspected and hundreds searched, our citizens have taken very kindly to the slight interruption suffered, realizing that the process was yielding very valuable results.

The report of the Division for the last three and one-half months of the year, since the divisional status was established, shows that 94 felony arrests were made, of which 33 were on suspicion of Auto Theft, 23 suspicion of Robbery and 13 suspicion of Burglary. Of the 102 misdemeanor arrests, 45 were for Carrying Concealed Weapons. 696 citations were issued for Traffic Violations.

In addition to its regular assignment, this Division is always available in a highly organized form for reserve and emergency duty of any kind, in the event of an unusually serious crime, a great public event or a serious catastrophe, without the necessity of disorganizing other units to cover the situation.

RECORDS

Established in the year 1906 with the personnel consisting of one Detective Sergeant, the Record Division of this Department has grown in importance and activity until the personnel required for the Central unit alone totals 100 Officers and Clerks, and in addition, a record unit has been established in every Police Division with an average personnel of five.

The Record Division is divided into three primary units, Records proper, Identification and Warrants. The Records unit is sub-divided into the Complaint and Criminal Sections. The Complaint Section during the past fiscal year received, indexed, and filed approximately 26,411 reports and in addition, searched, and connected to the basic crime report, the reports of the investigating officers showing the activities upon the original complaints.

The Criminal Section during the last year received, indexed, and filed approximately 96,319 reports covering the arrests of individuals and in addition received, indexed and properly filed the dispositions covering such arrests.

The Identification unit is subdivided into the Research, Photographic, Fingerprint, Handwriting and Surveying Sections.

The Research Section during the past year performed a major part in 223 criminal investigations, such investigations consisting of both physical and chemical analyses, in the laboratories and at the scene of crime.

The Photographic Section photographed 6,556 prisoners, which necessitated the making of 52,145 photographic prints for our local use and for the files of other Police Departments with whom we exchange. In addition took photographs of 241 scenes of crime and made 5,922 prints of such photographs for the use of investigating officers, prosecutors and courts.

The Fingerprint Section classified and searched 69,221 sets of fingerprints of which 31,881 disclosed previous police record of the subject. Of this total number, 25,659 sets of fingerprints were added to our permanent file. The total number of fingerprints on file in the Record Division was as of June 30th, 1929, 197,455.

This Section also answered 2,950 calls to the scene of crime for possible latent fingerprints, which resulted in the developing and photographing of 2,806 prints. Such prints lead to the identification of the perpetrators of 185 crimes, including murder, robbery, burglary, sodomy, grand theft, assault and violations of the Volstead and Wright Act. Fingerprinting of the dead resulted in the identification of 32 individuals.

The Handwriting Section made 2,084 investigations which resulted in the identification of 696 perpetrators of forged or altered instruments, or other writings used as evidence in court. In addition through the efforts of this Section, handwriting specimens were obtained of 666 forgers and 1,500 other potential forgers, all of which specimens were properly indexed and filed for future reference and comparison.

The Surveying Section, which was established September, 1928, investigated 56 scenes of crime and accident, and made drawings of 48 such scenes, all of which were presented to the court.

The Warrant Office in conjunction with the warrant investigators of the Patrol Divisions, received 39,409 local warrants of which 12,833 were served. In addition, this office served subpoenas on 46,767 witnesses for appearance in court.

In this and the following tables concerning offenders, the charges have been grouped approximately according to the recommendations of the Committee on Uniform Crime Records of the International Association of Chiefs of Police. No group totals are given for the reason that the groups do not coincide precisely with the latest published recommendations of the Committee, and it was not felt advisable to use group totals which might not compare with those in future reports.

POPULATION AND ARRESTS FOR SERIOUS OFFENSES

BY AGE GROUPS

SHOWING PER CENT OF TOTAL

In the above chart the age figures for offenders were derived from the tables on both juvenile arrests (preceding) and adult arrests (following).

The figures for the age distribution of population were taken from the United States Census of 1920. In view of the census age groups being larger than those used in the analysis of offenders, it was necessary to use a double key to age groups.

In this tabulation the figures opposite the charges printed in "bold face type" represent those cases in which the final dispositions were upon the original charges. The figures opposite the charges printed in "light face type" are those in which the charge was altered after arrest to the charge for which disposition is shown.

For the original charges see the preceding tabulation on changed charges.
